

CONSTANT TEMPERATURE WATER BATH
LCTW-A21

CONSTANT TEMPERATURE WATER BATH LCTW-A21

Constant Temperature Water Bath LCTW-A21 is a benchtop unit made from anti-corrosion plate and has a temperature control range of RT to 99.9°C. Features 20 holes of 65 mm diameter each, precise temperature control, long shelf life, saves power etc. to ensure accurate processing of many flask at desired temperature. It is used in biology, chemistry, environmental etc. labs.

FEATURES

- Configuration of 20 holes
- 15 L volume tank
- Corrosion resistant plate
- Highly precise display
- Compact design

APPLICATIONS

It is used to regulate temperature for various samples. Widely used during microbiological studies, incubation, boiling, etc.

SPECIFICATIONS

Model No	LCTW-A21
Temperature range	RT to 99.9°C
Chamber capacity	15 L
Structure	Ø 65 mm, 20 holes
Display Precision	0.01°C
Temperature Fluctuation	± 0.5°C
Time Range	0 to 999 min (optional)
Power	1500 W
Power Supply	220 V 50 Hz/ 60 Hz
Inner Dimension	460 × 300 × 110 mm
Packaging Dimension	570 × 400 × 160 mm
Gross Weight	12 kg
