

Medical Refrigerator

LMR-B14

Medical Refrigerator LMR-B14

Medical Refrigerator LMR-B14 is an under counter medical refrigerator. It is a microprocessor controlled unit with audible and visual alarm system. Forced air refrigeration system with high efficiency air-cooled condenser made out of copper. Comes with LED display and body made up of cold-rolled steel having antibacterial powder coating.

Features

- Microprocessor controlled system
- Large LED screen
- Alarms for high and low temperature, sensor failure, power failure and door ajar
- CFC free refrigerant
- Unibody design and mono-assembly foaming structure
- Cold rolled steel with antibacterial powder coating
- Foam door, door lock and auto decondensation is optional

Applications

Medical refrigerator is used for storing liquid, solid drugs, vaccines, biological specimens and samples in laboratories, research centers and hospitals.

Specifications

Model No	LMR-B14
Capacity	130 L
Shelves	3
Temperature	2 °C to 8 °C
Temperature accuracy	0.1 °C
Refrigerant	R134a / R600a
Consumption	90 W
Power supply	AC 220 C / $\pm 10\%$, 50 Hz / 60 Hz C 110 V $\pm 10\%$, 60 Hz
Internal size	385 x 356 x 737 mm
External size	505 x 525 x 925 mm
Packing dimension	620 x 645 x 975 mm
Weight	58 kgs
