## Plasma Extractor

## Plasma Extractor LPE-A10

---

Plasma Extractor LPE-A10 is a benchtop unit designed to extract blood components from the blood bags. It is a manual system which doesn't require any electricity and due to its strong structure, least maintenance is required. It is widely used in blood banks, hospitals and research institutes.

## Features

---

- ④ Manual operations, no electricity required
- ④ Strong design to withstand pressure
- ④ Stainless steel body to prevent corrosion
- ④ Levelling feet at bottom for convenient usage
- ④ Rubber knob on handle for proper handling
- ④ Complies with CE, ISO standards
- ④ Easy to use
- ④ Transparent acrylic plates used to observe the separation
- ④ Different volumes of blood bag can be used for separation

## Applications

---

It is used to separate blood components in hospitals, laboratories, research institutes and blood banks.

## Specifications

Model No	LPE-A10
Clamping Force	20 N
External Dimension (W×D×H)	165×250×250 mm
Separates	Plasma, Platelet
Applicable Blood Bag	100 ml, 200 ml, 300 ml, 400 ml
Package Dimension (W×D×H)	310×310×240 mm
Net Weight	2.5 kg
Gross Weight	2.8 kg
