

Vortex Mixer LVOM-A1 series

Vortex Mixer LVOM-A1 series are compact and portable unit having feature for adjustment of speed according to the experimental needs. They have low noise operation and are ideal product for quick spin applications. Analog units having knobs for stepless speed control thereby allowing uniform mixing of samples.

Features

- ✔ Adjustable speed range
- ✔ High performance, low noise
- ✔ Knob design facilitates stepless speed control
- ✔ Compact and stable structure
- ✔ Used for mixing test tubes, small containers

Applications

Vortex mixer are used to vortex cell suspension, tissue culture mixing in tubes, flasks, small containers etc.
